

CIDE-KICK® II

NONIONIC SPRAY ADJUVANT

ACTIVE INGREDIENTS: 100% d,l-limonene and related isomers plus selected emulsifiers.

CIDE-KICK II is a wetting agent, sticker, activator and penetrant all in one.

CIDE-KICK II is a byproduct of the forest industry, a low viscosity oil.

CIDE-KICK II helps break down the waxy cuticle on the leaf surface and helps penetrate the bud and bark area (of the woody brush), allowing a more effective uptake of the herbicide.

CIDE-KICK II is compatible with most terrestrial and aquatic herbicides, insecticides and other pesticides.

SPECIMEN LABEL

DIRECTIONS FOR USE

TYPE OF HERBICIDE APPLICATION	HIGH VOLUME GROUND APPLICATION		LOW VOLUME GROUND AND AERIAL APPLICATION
	per 100 gal.	per acre	per acre
Utility Rights-of-Way and Roadside: Foliar	1 pint-2 quarts	1 pint-2 quarts	1 pint-2 quarts
Forest Site Preparation	1-2 quarts	1-2 quarts	1-2 quarts
Aquatic—surface	1 pint-2 quarts	1 pint-2 quarts	1 pint-2 quarts
Aquatic—submerged	1-2 gallons	1-2 gallons	1-2 gallons
Agriculture/Citrus/Turf	1-2 pints	1-2 pints	1-2 pints

OTHER APPLICATIONS

Low Volume Basal & Dormant Brush: Increases bark penetration. See herbicide label for rates.

Forest Conifer Release: Caution, Cide-Kick II may reduce selectivity of herbicide with over-the-top application. Read herbicide label for rates.

Cide-Kick II can be used with insecticides, fungicides, growth regulators and biostimulants at various rates as determined by label and field experience.

Comments: Percent concentration of Cide-Kick II varies with total volume used per acre and type of application.

CAUTION: MAY CAUSE SKIN AND EYE IRRITATION. HARMFUL IF SWALLOWED.

See other panel for additional precautions and antidotes.

CONDITIONS OF SALE

We warrant that this product conforms to the chemical description on the label and is reasonably fit for the purposes set forth on the label when used according to directions under normal use conditions. THERE ARE NO OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED, INCLUDING A WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE. This warranty does not extend to the handling or use of this product contrary to label instructions or under abnormal conditions or under conditions not reasonably foreseeable to seller, and buyer assumes all risk of any such use.

Surfactants in CIDE-KICK II are exempt from the requirements of tolerance under Title 40, CFR, 180.1001 (d).

CAUTION

Do not take internally. Avoid skin contact. Keep out of reach of children.

ANTIDOTE: If swallowed, do NOT induce vomiting. Get medical attention. In case of skin contact, flush thoroughly with water.

FLASH POINT: 150°F—Combustible.

The use of CIDE-KICK II in concentrated form or in dilutions of 10% or more could cause defoliation or burns to vegetation.

NOTE: Weather conditions may have an effect on the amount of herbicides necessary. Warm, sunny days require less; cool and cloudy days require more.

CIDE-KICK II is non-corrosive to metal and chemical resistant hose; in continued use it is detrimental to rubber and plastic.

CIDE-KICK® II

**IMPROVED LOW ODOR
NONIONIC SURFACTANT**

NATURAL LIMONENE

100% ACTIVE

PENETRANT

WETTING AGENT

NATURAL STICKER

CIDE-KICK II is a 100% active nonionic penetrant which is made from natural limonene taken from the bark of pine trees. Cide-Kick II when added to herbicides or pesticides will enhance their activity, reduce surface tension for better wetting, and has a natural sticking action.

CIDE-KICK II helps break down the waxy cuticle on the leaf surface and helps penetrate the bud and bark area, allowing for more effective uptake of the herbicide.

CIDE-KICK II is nature's choice for the environment. No other surfactant has the proven field experience and the rigorous lab toxicology tests to back it up.
